

Making Sashes

What you will need:

- Iron-on transfer paper (found at local craft or office supply store)
- An iron
- White fabric
- White thread and needle

How to make the sashes:

- Print out onto the iron-on transfer paper. (You will not need to reverse the image, as it is already reversed.)
- Cut out the words from the transfer paper, leaving about 1/2" trim.
- Trim out fabric so that your sash is approximately 4-5 inches wide.
- Iron on design to the fabric.
- Fold the sash over your shoulder and sew together the ends of the sash.
